MUNICIPAL BY-LAWS.

THE CORPORATION OF THE TOWNSHIP OF SPALLUMCHEEN.

BY-LAW No. 479.

A By-law to provide for the Further Deepening and Clearing of the Deep Creek Drainage System in the Municipality of Spallumcheen and for borrowing on the Credit of the Municipality the sum of \$4,500 for completing Such Work.

Provisionally adopted this 13th day of May, 1949.

WHEREAS under the provisions of By-law No. 450 of the municipality the municipality was authorized to deepen the Deep Creek drainage system in the Municipality of Spallumcheen and to borrow on the credit of the said municipality the sum of \$5,350 for completing such work:

And whereas the municipality has on hand an unexpended balance of \$2,054.99 in respect to such borrowing:

And whereas it is deemed expedient to extend the scope of said work and to provide for further deepening and clearing of said drainage system:

And whereas a majority in number and value of the owners as shown by the last revised assessment roll of the property herein-after set forth to be benefited by the further deepening and clearing of said drainage system have petitioned the Municipal Council praying for the deepening and clearing of Deep Creek and Otter Creek from Armstrong city limits to Okanagan Lake and the removal therefrom of all obstructions preventing the free flow of the waters of said creeks:

And whereas thereupon the Council procured an examination to be made by Arthur F. Paget, R.P.E., C.E., being a person competent for such purpose, of the said creek proposed to be deepened and cleared and has also procured plans and estimates of the work to be made by the said Arthur F. Paget, R.P.E., C.E., and an assessment to be made by him of the lands and roads to be benefited by said deepening and clearing stating as nearly as he can the proportion of benefit which, in his opinion, will be derived in consequence of such deepening and clearing by every lot, or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied on the lots and parts of lots herein-after in that behalf specially set forth and described, and the report of the said Arthur F. Paget, R.P.E., C.E., in respect thereof and of the said deepening and clearing being as follows:—

REPORT ON PROPOSED COMPLETION OF DRAINAGE SCHEME THROUGH OTTER LAKE VALLEY, SOUTH OF ARMSTRONG.

General.—A portion of this scheme, from Armstrong to approximately the north end of Otter Lake, was carried out during 1945, and within the limitations of any part scheme has given satisfactory results. The effectiveness of the scheme as a whole, however, depends on the lowering of the creek channel from the lake outlet to a point on the Indian reserve below the O'Keefe bridge. Work has been done from time to time and particularly during 1938 on the portion between Otter Lake and the O'Keefe bridge, but if Otter Lake is to be lowered 4 feet as is now proposed, the grade necessary will require to be carried down to a point almost 2 miles (10,100 feet) below the O'Keefe bridge.

Grade.—The valley floor below Otter Lake is extremely flat and it is impossible to obtain a better creek floor grade than 1 in 6,000. While a wide channel is desirable on this grade, the

disposal of large quantities of excavated material presents a problem which is more fully gone into in a separate communication.

Work proposed.—As it is desired to lower the level of Otter Lake about 4 feet, a channel section is proposed having its floor level approximately 5 feet below the present channel floor level through the length between Otter Lake and the O'Keefe bridge, the floor to have a width of seven (7) feet with side slopes not less than one to one. This portion will be 17,400 feet long, including, as nearly as can be at present estimated, the extension of the grade into Otter Lake at its outlet.

South of the O'Keefe bridge the depth of excavation drops within a short distance to 4 feet, to 2½ feet about 6,000 feet down stream, and tails out entirely at a point 10,000 feet below the said bridge. The width of the channel might be slightly increased with the decreasing depth of excavation. The total length of this section will be 27,500 feet.

Following the completion of the work on this section and the consequent lowering of Otter Lake level, the portion of the channel through the Cross ranch (D.L. 98) can be reconstructed as described in the report made by D. K. Penfold, engineer, covering that portion of the Deep (Otter) Creek channel between Armstrong and Otter Lake.

The grade at this point must of course be carried sufficiently far into the lake to ensure the proper functioning of the channel above.

Estimated Cost.—I would consider that the sum of \$4,500 to be levied under the attached assessment, together with the contemplated contributions from the City of Armstrong, under By-law No. 319, and the Municipality of Spallumcheen, under By-law No. 450, should be sufficient to enable this much needed improvement to be successfully carried out.

Bridges.—The lowering of the creek channel under the O'Keefe and Larkin road bridges will in all probability affect these structures to some extent, and consideration should be given to this at an early date.

A. F. PAGET, R.P.E., C.E.

Kelowna, B.C.,
April 30th, 1949.

And whereas the said Council is of the opinion that the deepening and clearing of such drainage system is desirable:

And whereas the owners assessed under By-law 450 have consented to apply the said sum of \$2,054.99 in payment for the work to be done hereunder:

Be it therefore enacted by the said Municipal Council of the said Corporation of the Township of Spallumcheen pursuant to the provisions of the "Municipal Act":—

1. That the said report, plans, and estimates be adopted and that the said deepening and clearing, and the works connected therewith, be made and constructed in accordance therewith.

2. That the Reeve and Clerk of the said municipality may borrow on the credit of the said municipality the sum of \$4,500, being the funds necessary for the work, and may issue debentures of the municipality to that amount in sums of not less than one hundred dollars each, and payable within fifteen years from the date hereof, with interest at the rate of 3½ per centum per annum; that is to say, the said principal sum shall become due and payable in manner hereinafter mentioned on the day of _____, 1966; and the interest thereon at the rate aforesaid shall become due and payable on the _____ day of _____ in each year, commencing on the _____ day of _____, A.D. 19____; such debentures, and interest, to be payable in Canadian dollars, at the Canadian Bank of Commerce, in the City of Armstrong, in the Province of British Co-

lumbia, and to have attached to them coupons for the payment of the aforesaid interest; provided, however, that the said Municipal Council may, at its option, to be exercised by Resolution, on any of the aforesaid dates specified for the payment of interest, call and redeem before maturity any one or more of the said debentures (to be determined by lot) at par value, by giving to the holder or holders thereof thirty days' notice in advance of the proposed redemption date (such notice to be by advertisement in one issue of a weekly newspaper circulating in the said municipality, specifying the numbers of the debentures so called) and by depositing in the said Canadian Bank of Commerce at the City of Armstrong aforesaid a sum sufficient for the redemption of the debenture or debentures so called, together with accrued interest thereon; and no further interest shall be payable in respect of any debenture or debentures so called.
